BAGS NEW CATALOG

BY CANYON

UNDER REVISION

A black and white photograph of a Canyon mobile power bank. The power bank is rectangular with rounded corners and a matte finish. It is positioned horizontally, showing its right side. On the right edge, there are two USB-A ports stacked vertically, a micro-USB port, and a 3.5mm audio jack. At the bottom of the front face, there are four small circular LED indicator lights. The Canyon logo, consisting of a stylized envelope icon and the word "CANYON", is printed in the center of the front face. In the foreground, a white USB-C to USB-A cable is partially visible on the left. The background is softly blurred, showing a chair and a desk lamp, suggesting a desk or office environment.

TYRANT STYLISH GAMING MOUSE

CND-SGM7B

8717371864392

CND-SGM7G

8717371864408

Tyrant mouse from «Star Battles» series has been designed for those who prefer pleasant-touch quality finishing. The surface of this model is presented in two versions - smooth-glossy and soft-touch. Weight and dimensions are matched so well, that after 2-3 hours of active use you will barely feel the mouse in your hand. The device is designed for an average hand size. Will Tyrant help you to win? Absolutely! The unprecedented accuracy will reduce the number of your faults during the game and striking design will emphasize your individuality and character. Play your favorite games with this mouse, and you will be on the top!

SIX PROGRAMMABLE BUTTONS

Play and enjoy the virtual world, using standard settings, or customize functions of the buttons

BRIGHT DESIGN

Canyon SGM7 has two original designs: rubberized coating «Soft touch» and trendy gloss graphite. Stylish LED elements, turns your device into a real spacecraft of the future.

FIRM DESIGN

Mouse case is made of lightweight, durable and high quality plastic. Button mechanism can withstand heavy loads and can bear up to 10 million keystrokes.

PROFESSIONAL TECHNICAL CHARACTERISTICS

Mouse has well balanced set of professional technical characteristics, appropriate for professional devices. Optical sensor with a maximum resolution of 3200 DPI, supports the maximum frequency of 1000 Hz and acceleration of 30g

SENSITIVITY VARIATIONS

Adjust your movements for yourself! Four levels of sensor sensitivity will easily allow you to be sniper at the ambushes or participate in the epic battles, and assigned colors to each DPI will not allow you to get confused.

HAZARD GAMING MOUSE

CND-SGM6

8717371865184

Mouse CANYON series «Hazard» is the beginning of the collection with unique characteristics and design. Comfortable and ergonomic mouse combines practicality and extreme design. The main element of «Hazard» series is dynamic games in which you can feel in full capabilities of the controller. Existence of seven programmable buttons helps gamers instantly to activate the desired function in the midst of the play.

Mouse has 64K of own memory for settings saving, what is especially useful when working with different computers. While working on the mouse development, our engineers collected plenty of commentaries from professional gamers. That is why the symmetrical shape of «Hazard» fits different grip sizes and hands. No matter which hand you play and what type of grip you use, this mouse tightly and comfortably fits your hand, so you can play much longer. Comfortable housing and minimum of decorative elements allow focusing on the game without looking aside at the equipment.

SEVEN PROGRAMMABLE BUTTONS

Play and enjoy the virtual world using standard settings or customize functions of the buttons

BRIGHT DESIGN

Canyon SGM7 has breathtaking aggressive appearance. Stylish LED elements, turn your device into a real spacecraft of the future.

 CANYON

WHAT IS THE BEST GAMING KEYBOARD?

Buying a keyboard for true PC gamers is important but not the easy process.

What is more important for you? Programmable keys? Good lighting? Multimedia buttons? USB and headphone socket? The presence of numerous of different functions can confuse you and make the selection process more complex.

So if you are looking for the best gaming keyboard, here is a checklist of the most important features:

- **Game mode** – blocking of Windows button, to prevent accidental switching to the desktop.
- **Backlit keys** – thanks to backlit it is much easier to read the keys in the dark and find necessary ones.
- **Multimedia control** – allows you to control the volume and music without switching to the desktop.
- **Programmable keys** – allows you to program some or all keys for different game actions (or sequence) with macros.

GAMING KEYBOARD

HAZARD

CNS-SKB7-RU 5291485000165

CNS-SKB7-US 5291485000172

Series «Hazard» combines devices with unique features and design. Keyboard Canyon «Hazard» is made in a minimalistic design and embodies all the necessary functions. It has two colors of LED backlight, rubber base firmly holds the keyboard at the table surface. Typing is the same easy, as on the mechanical, and it is significant that typing is very comfortable during typesetting as well as gaming. The keyboard also has a game mode that locks down Windows key. In addition, the keyboard case is made of innovative alloy «Avial» (Aluminium alloy), which used in aircraft construction. «Hazard» keyboard has excellent functionality. It is real pleasure to use it and, by the way, it looks great.

SPECIAL FUNCTIONALITY

The keyboard has three high-speed mode, which can be used during the gaming process and thereby reduce the delay time of keys from standard 8ms to extremely fast - 4ms

FIRM DESIGN

The keyboard case is made of innovative alloy «Avial» (Aluminium alloy), which is used in aircraft construction and has a remarkable stability and immobility during gaming battles. Push-button mechanism is specifically designed by CANYON engineers. This mechanism duplicates pressing of mechanical buttons, designed for exceptional reliability, can withstand heavy loads of up to 20 million keystrokes, and before getting into the hands of the buyer, each device was tested under more than 20 tests.

ZONE BACKLIGHT

The keys are easy visible even in a low light. They have individually adjustable backlight brightness level. Cursor keys and block A, W, S, D has different colors for better distinguishability.

BRIGHT DESIGN

The unique breathtaking design of the device has aggressive look. Stylish LED elements, turn your device into a real spacecraft of the future.

GAME MODE

Deadlock of «Windows» key prevents «flyouts» from the game.
