GAMING

CANYON GAMING

2015

Games are awesome. They improve your imagination by making you a hero of different fantastic battles – a perfect escape from the daily routine. Every gamer always has to win, so he needs a trusty sidekick. No mouse/keyboard is right for every gamer, however, and which one you will need depends on both your gaming habits and your budget. For example, gamers are often distrustful of wireless mice, and with good reason — this type of mice often prone to lag and miss commands.

CANYON Gaming gears are designed according to high European quality standards. Testing of gaming capabilities, developing the ergonomic design and choosing of function buttons has been executed in close cooperation with one of the best professional cyber sports teams.

To ensure high quality of Canyon products, all of them are subject of 2-steps testing. Moreover, Canyon Gaming Series has bright eye-catching design that will definitely attract attention of an experienced gamer.

STAR BATTLES SERIES

Canyon has expanded its range of gaming gear to fit every gamers' style! Welcome our new series inspired by fabulous star wars and battles from fancy books and movies. After all, they laid impetus to the development of modern technology. Conquer space, destroy enemies, develop extraterrestrial civilizations - Canyon gaming gadgets will be your faithful assistants in those virtual worlds.

SKYHOOK ELEGANT GAMING MOUSE

CND-SGM5

87 1737 18645 14

Thanks to a successful form factor, the device is equally convenient to fit both right and left hand. In addition, a well-designed hull form allows you to apply different types of grip. While holding controller in your hands you can feel the balance of mass and size of the device. The main keys are very responsive, pressing is relatively easy. Besides the main keys, there are additional four buttons. It is possible to reprogram these additional keys and tie up all the necessary functions to them.

Skyhook mouse is the flagship of the «Star Battle» gaming line by Canyon. It personifies all the desired benefits – form, functionality, convenience. It will become a reliable teammate at a battle!

HAZARD GAMING MOUSE

CND-SGM6

8717371865184

Mouse CANYON series «Hazard» is the beginning of the collection with unique characteristics and design. Comfortable and ergonomic mouse combines practicality and extreme design. The main element of «Hazard» series is dynamic games in which you can feel in full capabilities of the controller. Existence of seven programmable buttons helps gamers instantly to activate the desired function in the midst of the play.

Mouse has 64K of own memory for settings saving, what is especially useful when working with different computers. While working on the mouse development, our engineers collected plenty of commentaries from professional gamers. That is why the symmetrical shape of «Hazard» fits different grip sizes and hands. No matter which hand you play and what type of grip you use, this mouse tightly and comfortably fits your hand, so you can play much longer. Comfortable housing and minimum of decorative elements allow focusing on the game without looking aside at the equipment.

SEVEN PROGRAMMABLE BUTTONS

Play and enjoy the virtual world using standard settings or customize functions of the buttons

BRIGHT DESIGN

Canyon SGM7 has breathtaking aggressive appearance. Stylish LED elements, turn your device into a real spacecraft of the future.

FIRM DESIGN

Mouse housing is made of innovative alloy «Avial» (Aluminium alloy), which is used in aircraft construction. Push-button mechanism is specifically designed by Canyon engineers and has exceptional reliability. It can withstand heavy loads and bear up to 20 million keystrokes.

PROFESSIONAL TECHNICAL CHARACTERISTICS

Mouse has well balanced set of professional technical characteristics, appropriate for professional devices. Premiere optical sensor with a maximum resolution of 3500 DPI, supports the maximum frequency of 1000 Hz and acceleration of 20g

WHAT IS THE BEST GAMING KEYBOARD?

Buying a keyboard for true PC gamers is important but not the easy process.

What is more important for you? Programmable keys? Good lighting? Multimedia buttons? USB and headphone socket? The presence of numerous of different functions can confuse you and make the selection process more complex.

So if you are looking for the best gaming keyboard, here is a checklist of the most important features:

- **Game mode** – blocking of Windows button, to prevent accidental switching to the desktop.
- **Backlit keys** – thanks to backlit it is much easier to read the keys in the dark and find necessary ones.
- **Multimedia control** – allows you to control the volume and music without switching to the desktop.
- **Programmable keys** – allows you to program some or all keys for different game actions (or sequence) with macros.

CNS-SKB7-RU 8717371864071

CNS-SKB7-US 8717371864088

Series «Hazard» combines devices with unique features and design. Keyboard Canyon «Hazard» is made in a minimalistic design and embodies all the necessary functions. It has two colors of LED backlight, rubber base firmly holds the keyboard at the table surface. Typing is the same easy, as on the mechanical, and it is significant that typing is very comfortable during typesetting as well as gaming. The keyboard also has a game mode that locks down Windows key. In addition, the keyboard case is made of innovative alloy «Avial» (Aluminium alloy), which used in aircraft construction. «Hazard» keyboard has excellent functionality. It is real pleasure to use it and, by the way, it looks great.

SPECIAL FUNCTIONALITY

The keyboard has three high-speed mode, which can be used during the gaming process and thereby reduce the delay time of keys from standard 8ms to extremely fast - 4ms

FIRM DESIGN

The keyboard case is made of innovative alloy «Avial» (Aluminium alloy), which is used in aircraft construction and has a remarkable stability and immobility during gaming battles. Push-button mechanism is specifically designed by CANYON engineers. This mechanism duplicates pressing of mechanical buttons, designed for exceptional reliability, can withstand heavy loads of up to 20 million keystrokes, and before getting into the hands of the buyer, each device was tested under more than 20 tests.

ZONE BACKLIGHT

The keys are easy visible even in a low light. They have individually adjustable backlight brightness level. Cursor keys and block A, W, S, D has different colors for better distinguishability.

BRIGHT DESIGN

The unique breathtaking design of the device has aggressive look. Stylish LED elements, turn your device into a real spacecraft of the future.

GAME MODE

Deadlock of «Windows» key prevents «flyouts» from the game.

WRIST REST AS A GIFT

You will be able to rest your wrists during long battles and world saving missions.
